Family Sessions

# Welcome

I'm so excited you want to learn more about documenting your family with a photo session. These sessions offer a combination of both posed and candid photos and last about an hour at an outdoor location of your choice. My free online styling service and digital "what to wear" guide are both provided to help make choosing your family's wardrobe easier. I'm here to help as much as possible along the way, and I can't wait to work with you!

Warmly,

*Lindsey*
